

Field note N° 7

Cooperative Teacher: Luz Amparo Córdoba Student Teacher: Cristian Andrés Cupitra Vargas

Descriptive notes (Portraits of the participants, a reconstruction of a dialogue, a description of the physical setting, accounts of particular events, or activities)	Reflective notes (Personal thoughts, feelings, impressions, ideas, problems)
Participants were happy and smiling students but as they were also very competitive, they sometimes struggled during the dynamic exercise. They complained a lot. The classroom was very clean, and the weather was so good!	This time it felt a bit strange to return to the classes because the last week I could not meet with the students, I think I missed them because I felt good to see them again, they were smiling and happy. The activities that I had prepared for this class were so catchy for them, I have started to think that it exists a good way to organize a class that works in this way: You must first choose a video that is related to a series that is transmitted on t,v and matches your topic, then you create your own worksheet or adapt one with the characters of the series, and last, you can generate a dynamic activity using pictures of that series. This worked so good for me, students were very pleased during this class.
Demographic information (Time, place, date)	
The first class was developed in the educational institution Jorge Eliecer Gaitán, sede Simón Bolívar. The population for this exercise were the 3rd grade students of the mentioned institution. It was developed from 7:30 to 9:30.
