

Field note N° 10

Cooperative Teacher: Luz Amparo Córdoba Student Teacher: Cristian Andrés Cupitra Vargas

Descriptive notes (Portraits of the participants, a reconstruction of a dialogue, a description of the physical setting, accounts of particular events, or activities)	Reflective notes (Personal thoughts, feelings, impressions, ideas, problems)
During this class many of the kids behaved very well, but some of them started to play inside the classroom, they played like fighting and even used a ball. I can recall a moment in which some of my students asked me if that was the last time I stay with them, they showed some appreciation for me. That was cool! Regarding the physical conditions during this classroom, it was clean, and the weather was comfortable. On the other hand, as I had extra time after finishing the activities, I had to play a movie for the students.	I felt well during this class although some students misbehaved. Moreover, I have started to feel nostalgic. Furthermore, I wonder if it is typical that the students start paying less attention to the classes during these two last weeks, I am deeply thinking that this is a common issue.
