

Field note N° 9

Cooperative Teacher: Silena Artunduaga Student Teacher: Cristian Andrés Cupitra Vargas

Descriptive notes (Portraits of the participants, a reconstruction of a dialogue, a description of the physical setting, accounts of particular events, or activities)	Reflective notes (Personal thoughts, feelings, impressions, ideas, problems)
This time, participants were collaborative and behaved very well, the completed all the activities and paid attention to the teacher’s instruction. The classroom was clean, and the weather was a little hot. The students seemed a little tired because they had been practicing sports. This time was the closing of the topic “jobs” and the activities developed where all dynamic, it was used an activity for reading and gathering information. I also tried to develop an exercise of self-assessment.	This class could be the last class with this grade. I felt good because the students were entertained with the activities. However, I felt a little stressed because I had lost two classes in which I wanted to collect the grades of the students that lacked some of them, so they were the entire class asking me about their grades and that was stressful. I feel a little sad because I will miss the students, they made me feel useful and loved because they all were respectful and smiled. Oh! My shinny little creatures 😊.
Demographic information (Time, place, date)	
The first class was developed in the educational institution Jorge Eliecer Gaitán, sede Simón Bolivar. The population for this exercise were the 5th grade students of the mentioned institution. It was developed from 10:00 to 12:00, so it lasted 2 hours.
